

All references to Azul in these Terms and Conditions should be read as “Contractor (EC America, Inc.), acting by and through its supplier, Azul Systems, Inc.” Nothing herein shall establish privity of contract between Azul Systems, Inc. and the Ordering Activity.

TERMS AND CONDITIONS FOR AZUL PRODUCTS AND SERVICES

AZUL SOFTWARE AGREEMENT

1. Definitions.

“Product” means the Azul software product available from the Download Site and detailed and further set forth in the applicable Exhibit A and an Order (and are incorporated herein by reference) in object code form.

“Download Site” means a password-protected, non-public online site managed and maintained by Azul where Customer is able to access and download the Product.

“Distribute” or a “Distribution” means delivering to, or making available to, a third-party end user (either directly or through indirect or other means including without limitation reseller channels, assignment, or sublicense).

“Software Services”, “Supported Instances” and “Third-Party Software Licenses” have the meanings as detailed and further set forth in the applicable Exhibit A and an Order (as defined in Section 5.2).

2. Grant of Product License. Subject to Customer’s compliance with all of the terms herein, Azul shall provide the Software Services for, and grants Customer the Product License to, the Product as set forth on each Order. Customer may only use the Product on the number of Supported Instances that have been purchased. Customer may make copies of the Product for back-up purposes, but Azul retains ownership of all copies. Customer acknowledges that the Product contains and uses certain third-party and/or open source software (“Third-Party Software”). THIRD-PARTY SOFTWARE MAY BE SUBJECT TO AND GOVERNED BY THE THIRD-PARTY SOFTWARE LICENSES AS DEFINED IN THE APPLICABLE EXHIBIT A (the “Third-Party Software Licenses”). Nothing herein shall bind the Ordering Activity to any Third-Party Software terms unless the terms are provided for review and agreed to in writing by all parties. Ordering Activity shall ensure it has reviewed the applicable Third-Party Software Licenses and has the proper licenses to use the Product. Notwithstanding anything to the contrary herein, this Agreement does not limit or supersede any rights or obligations Customer has as a result of Third-Party Software Licenses.

3. Customer Restrictions and Obligations. Customer will not (and will not allow any third party to): (i) unless so authorized in the applicable Exhibit A or an Order, externally Distribute the Product or any portion thereof (even though an applicable Third-Party Software License may give Customer the right to Distribute the Product) or the Documentation; or (ii) post or Distribute the Product (or any portion thereof) on any publicly accessible website or any other public means; or (iii) provide, lease, lend, disclose, use for timesharing or service bureau purposes, or otherwise use or allow others to use for the benefit of any third party, the Product (except as expressly and specifically authorized by Azul in writing); or (iv) disclose to any third party any benchmarking or comparative study involving the standalone Product (except as expressly and specifically authorized by Azul in writing); or (v) reverse engineer, disassemble, decompile, or modify or create derivative works of the Product (except to the extent such restriction is prohibited by applicable law or is allowed by a relevant Third-Party Software License); or (vi) export or re-export the Product in violation of any applicable laws or regulations; or (vii) Distribute, sell or offer for sale any Azul product (irrespective of how or where such Azul product is obtained) without paid and active Software Services for such Azul product; or (viii) remove or alter any copyright, trademark, or other proprietary notice from the Documentation or the Product or any portion thereof. Except for the rights expressly granted herein, Azul retains all right, title and interest in and to the Product. Prior to disposing of any media or apparatus containing any part of the Product or Documentation, Customer shall completely destroy any Product and Documentation contained therein. All the limitations and restrictions on Products in this Agreement also apply to Documentation and screens.

4. Support and Maintenance. While the Software Services for a Product have not expired or been terminated, and Customer is otherwise in compliance with its obligations under this Agreement, Azul will provide support and maintenance services for that Product as and to the extent described in Exhibit B (“Support Services”), the applicable Exhibit A, and an Order. Customer may not use Support Services: (i) to support installations or deployments of a Product on more Supported Instances than have been purchased; or (ii) in violation of any Support Services Restrictions described in the applicable Exhibit A or in an Order; or (iii) purchased with a given Support Tier to support installations or deployments of a Product that have purchased Software Services with a lower level of Support Tier (for example without limitation, Premium Support cannot be used to support installations that have purchased Standard Support only). For clarity and notwithstanding anything in this Agreement to the contrary, Azul has no obligation to provide Support Services to Customer’s end users.

5. Fees and Payment.

5.1 Customer agrees to pay to the GSA Schedule Contractor on behalf of Azul (or the Business Partner from whom Software Services or Professional Services are purchased) the fees as set forth in an applicable Order. Fees for Software Services and subsequent renewals are paid, in accordance with the GSA Schedule and GSA Schedule pricelist.

5.2 Reserved.

6. Compliance and Reporting. Upon written request from Azul and not to exceed once per calendar year, Customer shall provide a certificate to Azul executed by an authorized signatory of Customer stating that Customer is in compliance with the terms and conditions of this Agreement, including but not limited to confirmation that all applicable fees have been paid. If any underpayments are revealed by any such certificate (or if Customer otherwise becomes aware of any underpayments), Customer shall promptly pay any underpayments. Customer agrees to comply with the reporting obligations if specified on an Order.

7. Term and Termination.

7.1 Termination of the Agreement. The term of this Agreement will begin on the Effective Date. Any termination of this Agreement will not operate to terminate any active Software Services, and the terms and conditions of this Agreement will continue in full force and effect (except no new or renewals of Software Services may be purchased) until the latest expiration of any Software Services covered under this Agreement.

7.2 Term of Software Services. Each Software Services hereunder shall begin as of the date set forth on the application Order and shall continue for the initial term set forth on such Order. Following such initial term, each Software Services hereunder may be renewed for successive terms equal in length to the initial term by executing a new Order for such successive term; For each Software Services, the initial term, together with any renewals thereof, is referred to as the "Software Services Term".

7.3 Effect of Termination. Upon the termination of this Agreement, all licenses granted hereunder (except for licenses granted on a perpetual basis and only if a material breach of this Agreement by Customer has not occurred) shall immediately terminate and Customer shall immediately cease all use of all affected Products and return or destroy all copies of all affected Products and all portions thereof and so certify to Azul. Any rights, obligations and duties herein which by their nature extend beyond the expiration or termination hereof shall survive any cancellation, expiration or termination hereof. Termination is not an exclusive remedy and all other remedies will be available whether or not termination occurs.

8. Reserved.

9. Limited Warranty and Disclaimer. Except in the case of an Evaluation License, Azul warrants for a period of ninety (90) days ("Warranty Period") from the beginning of the applicable Software Services Term that the Product will materially conform to Azul's then current Documentation for such Product. This warranty covers only problems reported to Azul during the warranty period. ANY LIABILITY OF AZUL WITH RESPECT TO A PRODUCT OR THE PERFORMANCE THEREOF UNDER ANY WARRANTY, STRICT LIABILITY OR OTHER THEORY WILL BE LIMITED EXCLUSIVELY TO PRODUCT REPLACEMENT OR, IF REPLACEMENT IS INADEQUATE AS A REMEDY OR, IN AZUL'S OPINION, IMPRACTICAL, TO A REFUND OF AN APPROPRIATE PORTION THE REMAINING UNAMORTIZED SOFTWARE SERVICES FEE PAID BY CUSTOMER FOR THE PRODUCT THAT IS THE SUBJECT OF THE CLAIM. EXCEPT FOR THE FOREGOING WARRANTY BY AZUL, ALL PRODUCTS ARE PROVIDED "AS IS" WITHOUT WARRANTY OF ANY KIND FROM ANYONE, INCLUDING WITHOUT LIMITATION, ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE OR NONINFRINGEMENT. FURTHER, AZUL DOES NOT WARRANT RESULTS OF USE OR THAT THE PRODUCTS ARE BUG FREE OR THAT THE PRODUCT'S USE WILL BE UNINTERRUPTED.

10. Reserved.

11. Reserved.

12. Business Partners. Azul has entered into agreements with other authorized organizations, including but not limited to resellers, distributors, and consultants, to promote, market, sell and support certain Azul products and services (such organizations are "Business Partners"). When Customer purchases Products, Software Services and/or Professional Services through a Business Partner, Azul confirms that it is responsible for providing the Product, associated Support Services, and/or Professional Services to Customer under the terms of this Agreement. Azul is not responsible for (a) the actions of Business Partners, (b) any additional obligations Business Partners have to Customer, or (c) any products or services that Business Partners supply to Customer under any separate agreements between a Business Partner and Customer.

13. Reserved.

14. Miscellaneous. Each party represents and warrants that it shall comply with all applicable laws and regulations in connection with its performance hereunder. Azul may object to and reject any pre-printed or otherwise conflicting terms of any related purchase order, confirmation, or similar form which shall have no force or effect unless accepted by Azul. Neither this Agreement nor the licenses granted hereunder are assignable or transferable without the prior written consent of the other party (and any attempt to do so shall be void) except that either party may assign and transfer all of its rights and obligations hereunder without such written consent to a successor to (as applicable) substantially all of Azul's Product business or assets or Customer's business for which Products are

licensed and Support Services are provided. Assignments are subject to FAR Clause 52.232-23, Assignment of Claims (JAN 1986) and FAR 42.12 Novation and Change-of-Name Agreements. The parties agree that they are each independent contractors and nothing in this Agreement will be deemed to establish a joint venture, partnership, agency or employment relationship between the parties. The provisions hereof are for the benefit of the parties only and not for any other person or entity. Any notice, report, approval, authorization, agreement or consent required or permitted hereunder shall be provided either in writing (and notices shall be sent to the address the applicable party has or may provide by written notice or, if there is no such address, the most recent address the party giving notice can locate using reasonable efforts) or via e-mail. No failure or delay in exercising any right hereunder will operate as a waiver thereof, nor will any partial exercise of any right or power hereunder preclude further exercise. Azul may use Customer's name in client listings to the extent permitted by GSAR 552.203-71. No right or license, express or implied, is granted in this Agreement for the use of any Azul or third-party trade names, service marks or trademarks, including, without limitation, the Distribution of the Products utilizing any Azul Trademarks. If any provision shall be adjudged by any court of competent jurisdiction to be unenforceable or invalid, that provision shall be limited or eliminated to the minimum extent necessary so that this arrangement shall otherwise remain in full force and effect and enforceable. This Agreement shall be governed by Federal law without regard to the United Nations Convention on the International Sale of Goods or the Uniform Computer Information Transactions Act. This Agreement, with the Purchase Order, GSA Schedule and GSA Schedule pricelist, is the complete and exclusive statement of the mutual understanding of the parties and supersedes and cancels all previous written and oral agreements and communications relating to the subject matter hereof and any waivers or amendments shall be effective only if made in writing. In the event of a conflict between this Agreement and a Negotiated Purchase Order, the Purchase Order shall prevail. As defined in FAR section 2.101, DFAR section 252.227-7014(a)(1) and DFAR section 252.227-7014(a)(5) or otherwise, all Products and accompanying documentation provided by Azul are "commercial items," "commercial computer software" and/or "commercial computer software documentation." Consistent with FAR section 12.212, any use, modification, reproduction, release, performance, display, disclosure or distribution thereof by or for the U.S. Government shall be governed solely by these terms and shall be prohibited except to the extent expressly permitted by these terms Neither party is excused from taking reasonable steps to follow its normal disaster recovery procedures or its obligation to pay for Software Services or Professional Services delivered. Except as may be otherwise provided herein, this Agreement is subject to FAR 52.212 -4 (f) Excusable delays. (JUN 2010). There are no third-party beneficiaries to this agreement.

EXHIBIT A-1
LICENSED PRODUCT: “ZING”

Product:

Zing Enterprise Bundle

- Includes the Zing Virtual Machine (ZVM) for Java applications, Zing System Tools (ZST), and Zing Vision.

Product License:

Azul grants Customer a time-based (during the applicable Software Services Term), without rights to sublicense, worldwide, nontransferable (except in connection with a permitted assignment pursuant to Section 14 of the Agreement), nonexclusive right to use the Product in object code form only; provided that certain Third-Party Software is instead licensed pursuant to the relevant terms set forth below in the Third-Party Software Licenses. Customer may only use the Product on Systems for which Customer has purchased a Supported Instance and solely in connection with Customer’s internal business operations.

CUSTOMER ACKNOWLEDGES THAT THE PRODUCT MAY INCLUDE FEATURES TO PREVENT USE AFTER THE APPLICABLE SOFTWARE SERVICES TERM AND/OR USE INCONSISTENT HEREWITH.

Software Services: Time-based Product License (as described above) and associated Support Services for the Product during the term of the Product License.

Support Services Additions: In addition to the Support Services as described in Exhibit B of the Agreement, Azul will use commercially reasonable efforts to:

- ensure that the Product delivered to Customer has passed the OpenJDK Technology Compatibility Kit (TCK) available for a given major release of Java

Designated Support Contacts: As further detailed in Section 8 of Exhibit B (Support Services) of the Agreement, Customer may only contact Azul through Customer’s Designated Support Contacts and may designate up to the number of contacts as set forth in the table below based on the number of Supported Instances purchased and the Support Tier selected and paid for by Customer:

| Number of Supported Instances | DESIGNATED NUMBER OF SUPPORT CONTACTS | |
|-------------------------------|---------------------------------------|---------|
| | Standard | Premium |
| 1 to 50 | 2 | 2 |
| 51 to 100 | 2 | 4 |
| 101 to 250 | 2 | 6 |
| 251 to 500 | 2 | 8 |
| 501 to 1000 | 4 | 10 |
| 1001 and over | 4 | 12 |

Third-Party Software Licenses: As listed at http://www.azul.com/license/zing_third_party_licenses.html.

Product-specific Definitions:

- “System” means a physical hardware system capable of running the Product, including without limitation a computer, server, workstation, laptop, individual blade or other physical system, as applicable.
- “Physical Node” means a System that includes up to two (2) processor sockets, where each processor socket may include an unlimited number of processing cores. For Systems with more than two (2) processor sockets, one Supported Instance is required for each two (2) processor sockets.
- “Virtual Node” means a virtual machine that includes up to thirty-two (32) virtual processing cores. For virtual machines with more than thirty-two (32) virtual processing cores, one Supported Instance is required for each thirty-two (32) virtual processor cores.
- “Supported Instance” means Software Services with (i) one or more instances of Zing System Tools and Zing Virtual Machine for Java applications running on either (a) one (1) Physical Node or (b) one (1) Virtual Node; and (ii) one or more instances of Zing Vision running on an unlimited number of Physical Nodes or Virtual Nodes.

EXHIBIT A-2

LICENSED PRODUCT: “ZULU ENTERPRISE”

Product:

Zulu Enterprise Bundle

- Includes Zulu Enterprise (Azul’s supported builds of OpenJDK) and Zulu Mission Control (Azul’s builds of JDK Mission Control supported for use with Zulu Enterprise)

Product License:

Azul grants Customer a perpetual, worldwide, nonexclusive right to use the Product; provided that certain Third-Party Software is instead licensed pursuant to the relevant terms set forth below in the Third-Party Software Licenses.

Software Services: Time-based Support Services for the Product.

Support Services Additions: In addition to the Support Services as described in Exhibit B of the Agreement, Azul will use commercially reasonable efforts to:

- update the JDK component of the Product for a given update release within the timeframe as specified below after the update is released for General Availability (GA) by the associated OpenJDK project as follows:

| | Support Tier | | |
|--|---------------------------------|-------------------------------|--------------------------------|
| | Platinum | Premium | Standard |
| Security fixes that have an identified CVE | 48 hours ¹ / 15 days | 7 days ¹ / 15 days | 15 days ¹ / 30 days |
| Security fixes that have an identified CVE, bug fixes, and other updates | 7 days ¹ / 15 days | 15 days | 30 days |

- ¹ Limited to builds of the Zulu JDK/JRE for 64-bit Java versions 7 onward running on x86 processors on Linux, Windows and macOS operating systems
- Common Vulnerabilities and Exposures (“CVE”) is as defined by the NIST National Vulnerability Database (reference <https://nvd.nist.gov/vuln>); and
- update the non-JDK components of the Product for a given update release no later than thirty (30) days after the update is released for General Availability (GA) by the OpenJDK project; and
- backport security fixes that have an identified CVE from newer supported Java Major Releases to older supported Java Major Releases in accordance with the timeframes in the table above; and
- ensure that the Product delivered to Customer has passed the OpenJDK Technology Compatibility Kit (TCK) available for a given major release of Java; and
- for those Customers who have purchased Support Services with the Platinum or Premium Support Tiers (and except for those releases designated as “Not Verified” or “NV”), ensure and so certify with each release of the Product that no Accessible APIs in the Product carry licenses that require code that runs on the Product using those APIs to carry a specific license, and that use with other Software does not contaminate the code or intellectual property of such Software with any license requirements, and distribution of such Software can be governed by any license at the discretion of the owner of the Software. For purposes herein, (a) “Accessible APIs” means all Java classes accessible via the JDK/JRE class path or module path, as well as all native symbols accessible via .h files included in the JDK/JRE; and (b) “Software” refers to application or code of Customer or third parties, which runs on or accesses the Product via the Accessible APIs.

Designated Support Contacts: As further detailed in Section 8 of Exhibit B (Support Services) of the Agreement, Customer may only contact Azul through Customer’s Designated Support Contacts and may designate up to the number of contacts as set forth in the table below based on the number of Supported Instances purchased and the Support Tier selected and paid for by Customer:

| Number of Supported Instances | DESIGNATED NUMBER OF SUPPORT CONTACTS | | |
|-------------------------------|---------------------------------------|---------|----------|
| | Standard | Premium | Platinum |
| 1 to 50 | 2 | 2 | 4 |
| 51 to 100 | 2 | 4 | 6 |
| 101 to 250 | 2 | 6 | 8 |
| 251 to 500 | 2 | 8 | 10 |
| 501 to 1000 | 4 | 10 | 12 |
| 1001 and over | 4 | 12 | 15 |

Third-Party Software Licenses: As listed at http://www.azul.com/license/zulu_third_party_licenses.html.

Product-specific Definitions:

- “System” means a physical hardware system capable of running the Product, including without limitation a computer, server, workstation, laptop, individual blade or other physical system, as applicable.
- “Physical Node” means a System that includes up to two (2) processor sockets, where each processor socket may include an unlimited number of processing cores. For Systems with more than two (2) processor sockets, one Supported Instance is required for each two (2) processor sockets.
- “Virtual Node” means a virtual machine that includes up to thirty-two (32) virtual processing cores. For virtual machines with more than thirty-two (32) virtual processing cores, one Supported Instance is required for each thirty-two (32) virtual processor cores.
- “Supported Instance” means Software Services with (i) one or more instances of the Zulu JDK/JRE running on either (a) one (1) Physical Node, or (b) one (1) Virtual Node; and (ii) one or more instances of Zulu Mission Control running on an unlimited number of Physical Nodes or Virtual Nodes.

EXHIBIT A-3
LICENSED PRODUCT: “ZULU EMBEDDED”

Product:

Zulu Embedded, in the Product Configuration as specified in an Order

Product License:

Azul grants Customer a perpetual, worldwide, nonexclusive right to use the Product; provided that certain Third-Party Software is instead licensed pursuant to the relevant terms set forth below in the Third-Party Software Licenses. Customer may (a) use, copy and Distribute the Documentation for the Product in connection with the Distribution of Combination Products; and (b) use, market, demonstrate, Distribute, provide training with respect to, and otherwise commercialize Combination Products and/or related services. Customer may use contractors and channels to exercise the rights granted in this Section provided any such contractors and channels agree to be bound by the terms of this Agreement and Customer assumes responsibility therefor.

Customer Restrictions and Obligations: In addition to the Restrictions and Obligations as specified in Section 3 of the Agreement, Customer will ensure that Azul’s rights (including, without limitation, rights with respect to license restrictions, limitations on liability and warranty disclaimers) are at least as protected in a written license agreement with Customer’s end users as those rights of Customer. Customer shall not make any representations or warranties specifically with respect to the Product except as expressly authorized in writing by Azul. Customer will not (and will not allow any third party to): (i) sell or offer for sale the Product or Software Services on a standalone basis, or use the Software Services on a standalone basis for the benefit of a third party; or (ii) use, market, demonstrate, Distribute, provide training with respect to, or otherwise commercialize the Product or Software Services except as a part of a Combination Product; or (iii) use the Product or Software Services for Customer’s internal business purposes or operations except as a part of a Combination Product; or (iv) market, Distribute, use, or otherwise commercialize the Product or Software Services in violation of any Support Services Restrictions described herein or in an Order. Customer will make information available to its end users regarding the Third-Party Software Licenses contained in the Product; for example, this requirement may be satisfied by providing notice in the installation process or user guide of the Combination Product. Customer agrees to use reasonable commercial efforts to enforce violations or infringements under any agreements for the Product with its customers and to inform Azul promptly of any known violation, infringement or breach.

Software Services: Time-based Support Services for the Product.

Support Services Restrictions: Support Services will not be provided for the Product: (a) for any use other than when used as part of Combination Products, or (b) for any Product Configurations not explicitly specified in an Order.

Support Services Additions: In addition to the Support Services as described in Exhibit B of the Agreement, Azul will use commercially reasonable efforts to:

- update the JDK component of the Product for a given update release within the timeframe as specified below after the update is released for General Availability (GA) by the associated OpenJDK project as follows:

| | Support Tier | |
|--|--------------|----------|
| | Premium | Standard |
| Security fixes that have an identified CVE ¹ | 7 days | 15 days |
| Security fixes that have an identified CVE, bug fixes, and other updates | 15 days | 30 days |

– ¹ Limited to builds of the Zulu JDK/JRE for 64-bit Java versions 7 onward running on x86 processors on Linux, Windows and macOS operating systems

– Common Vulnerabilities and Exposures (“CVE”) is as defined by the NIST National Vulnerability Database (reference <https://nvd.nist.gov/vuln/>); and

- update the non-JDK components of the Product for a given update release no later than thirty (30) days after the update is released for General Availability (GA) by the OpenJDK project; and
- ensure that the Product delivered to Customer has passed the OpenJDK Technology Compatibility Kit (TCK) available for a given major release of Java; and
- for those Customers who have purchased Support Services with the Premium Support Tier (and except for those releases designated as “Not Verified” or “NV”), ensure and so certify with each release of the Product that no Accessible APIs in the Product carry licenses that require code that runs on the Product using those APIs to carry a specific license, and that use with other Software does not contaminate the code or intellectual property of such Software with any license requirements, and distribution of such Software can be governed by any license at the discretion of the owner of the Software. For purposes herein, (a) “Accessible APIs” means all Java classes accessible via the JDK/JRE class path or module path, as well as all native symbols accessible via .h files included in the JDK/JRE; and (b) “Software” refers to application or code of Customer or third parties, which runs on or accesses the Product via the Accessible APIs.

Designated Support Contacts: As further detailed in Section 8 of Exhibit B (Support Services) of the Agreement, Customer may only contact Azul through Customer’s Designated Support Contacts and may designate up to the number of contacts as set forth in the table below based on the number of unique Combination Products, the Supported Instances purchased and the Support Tier selected and paid for by Customer:

| Total Number of Supported Instances | DESIGNATED NUMBER OF SUPPORT CONTACTS PER UNIQUE COMBINATION PRODUCT | |
|-------------------------------------|--|---------|
| | Standard | Premium |
| Less than 2,500 | 2 | 2 |
| 2,501 to 10,000 | 2 | 3 |
| Greater than 10,000 | 2 | 4 |

Third-Party Software Licenses: As listed at http://www.azul.com/license/zulu_third_party_licenses.html.

Product-specific Definitions:

- “Customer Product” is a Customer product that is developed, manufactured, provided or Distributed by or for Customer, is licensed to Customer’s end users, and as further defined in an Order.
- “Combination Product” means a Customer Product in or with which the Product (or any portion thereof) is included or provided or bundled or used with, and also includes Product (or any portion thereof) to the extent it is included in, used, provided or bundled with, or intended for use with, a Customer Product.
- “Product Configuration” is the specific processor(s), operating system(s), and Java version(s) that are being licensed to Customer and are authorized for use, as specified in an Order.
- “Supported Instance” means Software Services with one or more instances of the Product running on one (1) physical hardware system including without limitation a computer, server, workstation, laptop, individual blade or other physical system, as applicable; or one (1) virtual machine.

EXHIBIT A-4

LICENSED PRODUCT: "ZING EMBEDDED"

Product:

Zing Embedded, in the Product Configuration as specified in an Order

Product License:

Azul grants Customer a time-based (during the applicable Software Services term) worldwide, nontransferable (except in connection with a permitted assignment pursuant to Section 14 of the Agreement), nonexclusive right and license to use in object code only and copy the Product to create, produce, support and maintain Combination Products; provided that certain Third-Party Software is instead licensed pursuant to the relevant terms set forth below in the Third-Party Software Licenses. Customer may (a) use, copy and Distribute the Documentation for the Product in connection with the Distribution of Combination Products; and (b) use, market, demonstrate, Distribute, provide training with respect to, and otherwise commercialize Combination Products and/or related services. Customer may use contractors and channels to exercise the rights granted in this Section provided any such contractors and channels agree to be bound by the terms of this Agreement and Customer assumes responsibility therefor.

CUSTOMER ACKNOWLEDGES THAT THE PRODUCT MAY INCLUDE FEATURES TO PREVENT USE AFTER THE APPLICABLE SOFTWARE SERVICES TERM AND/OR USE INCONSISTENT HERewith.

Customer Restrictions and Obligations: In addition to the Restrictions and Obligations as specified in Section 3 of the Agreement, Customer will ensure that Azul's rights (including, without limitation, rights with respect to license restrictions, limitations on liability and warranty disclaimers) are at least as protected in a written license agreement with Customer's end users as those rights of Customer. Customer shall not make any representations or warranties specifically with respect to the Product except as expressly authorized in writing by Azul. Customer will not (and will not allow any third party to): (i) sell or offer for sale the Product or Software Services on a standalone basis, or use the Software Services on a standalone basis for the benefit of a third party; or (ii) use, market, demonstrate, Distribute, provide training with respect to, or otherwise commercialize the Product or Software Services except as a part of a Combination Product; or (iii) use the Product or Software Services for Customer's internal business purposes or operations except as a part of a Combination Product; or (iv) market, Distribute, use, or otherwise commercialize the Product or Software Services in violation of any Support Services Restrictions described herein or in an Order. Customer will make information available to its end users regarding the Third-Party Software Licenses contained in the Product; for example, this requirement may be satisfied by providing notice in the installation process or user guide of the Combination Product. Customer agrees to use reasonable commercial efforts to enforce violations or infringements under any agreements for the Product with its customers and to inform Azul promptly of any known violation, infringement or breach.

Software Services: Time-based Product License (as described above) and associated Support Services for the Product during the term of the Product License.

Support Services Restrictions: Support Services will not be provided for the Product: (a) for any use other than when used as part of Combination Products, or (b) for any Product Configurations not explicitly specified in an Order.

Support Services Additions: In addition to the Support Services as described in Exhibit B of the Agreement, Azul will use commercially reasonable efforts to:

- ensure that the Product delivered to Customer has passed the OpenJDK Technology Compatibility Kit (TCK) available for a given major release of Java

Designated Support Contacts: As further detailed in Section 8 of Exhibit B (Support Services) of the Agreement, Customer may only contact Azul through Customer's Designated Support Contacts and may designate up to the number of contacts as set forth in the table below based on the number of unique Combination Products and Supported Instances purchased and paid for by Customer:

| Total Number of Supported Instances | DESIGNATED NUMBER OF SUPPORT CONTACTS PER UNIQUE COMBINATION PRODUCT | |
|-------------------------------------|--|---------|
| | Standard | Premium |
| Less than 2,500 | 2 | 2 |
| 2,501 to 10,000 | 2 | 3 |
| Greater than 10,000 | 2 | 4 |

Third-Party Software Licenses: As listed at http://www.azul.com/license/zing_third_party_licenses.html.

Product-specific Definitions:

- "Customer Product" is a Customer product that is developed, manufactured, provided or Distributed by or for Customer, is licensed to Customer's end users, and as further defined in an Order.
- "Combination Product" means a Customer Product in or with which the Product (or any portion thereof) is included or provided or bundled or used with, and also includes Product (or any portion thereof) to the extent it is included in, used, provided or bundled with, or intended for use with, a Customer Product.
- "Product Configuration" is the specific processor(s), operating system(s), and Java version(s) that are being licensed to Customer and are authorized for use, as specified in an Order.
- "Supported Instance" means Software Services with one or more instances of the Product running on one (1) physical hardware system including without limitation a computer, server, workstation, laptop, individual blade or other physical system, as applicable; or one (1) virtual machine.

EXHIBIT B

SUPPORT AND MAINTENANCE SERVICES (“SUPPORT SERVICES”) TERMS AND CONDITIONS

1. SUPPORT AND MAINTENANCE SERVICES. Support Services consist of (a) Error corrections provided to Customer’s Designated Support Contacts concerning the installation and use of supported versions of the Product, (b) Product updates that Azul in its discretion makes generally available to its support and maintenance customers without additional charge, (c) access to Azul’s support portal and Download Site, and (d) facilities for case and bug tracking, escalation of problems for priority attention, and assistance with troubleshooting to diagnose and fix errors in the Product. Certain benefits of Support Services depend on the support tier which has been selected and paid for by Customer (the “Support Tier”), as set forth in the table below:

| Benefit | SUPPORT TIER | |
|---|--|--|
| | Standard | Platinum or Premium |
| Support Hours and First Response SLA | Standard Business Hours Next Business Day SLA | 24x7x365 hours 1 hour SLA |
| Product Downloads and Fixes | Regular quarterly releases | Regular quarterly releases, Early Access to upcoming releases, and Hot Fixes |
| Number of Tickets | 6 Tickets per year | Unlimited Tickets |
| Phone/Email/Web support | Phone, Email and Web | Phone, Email, and Web |
| Support Forum Access | Read & Write | Read & Write |

2. ERROR PRIORITY LEVELS. Azul shall exercise commercially reasonable efforts to correct any Error reported by Customer in the current unmodified release of the Product in accordance with the priority level reasonably assigned to such Error by Azul.

- Priority 1 Errors means a report that the Product is failing to perform in accordance with the Documentation and that such failure is reproducible and makes one or more critical functions of the Product inoperable. To be classified as Priority 1, an Error must (i) prevent a Customer from conducting critical and primary business functions (that are consistent with the Product’s intended use and functions) in a production environment, and (ii) have no immediate fix or work-around. For Priority 1 Errors, Azul shall commence the following procedures: (i) assign Azul engineers to diagnose the Error; (ii) notify Azul management that such Errors have been reported and of steps being taken to correct such Error(s); (iii) provide Customer with periodic reports on the status of the corrections; and (iv) immediately initiate work on a prioritized basis to provide Customer with a Workaround or Fix as soon as commercially reasonable.
- Priority 2 Errors means a report that the Product is functioning but in a significantly degraded or restricted capacity. To be classified as Priority 2, an Error must be reproducible and (i) cause a high impact on some portion of Customer’s primary business functions (that are consistent with the Product’s intended use and functions) in a production environment, and (ii) have no immediate fix or work-around. For Priority 2 Errors, Azul shall commence the following procedures: (i) assign Azul engineers to diagnose the Error; (ii) notify Azul management that such Errors have been reported and of steps being taken to correct such Error(s); (iii) provide Customer with periodic reports on the status of the corrections; and (iv) initiate work to provide Customer with a Workaround or Fix as soon as commercially reasonable.
- Priority 3 Errors means a report of degraded operations of the Product and reproducible limited condition that causes a slight or non-critical failure of the Product to function according to the Documentation. Azul shall exercise commercially reasonable efforts to include a Fix for the Error in the next regular Product release.
- Priority 4 Errors means a report of minimal impact and means a minor problem or error(s) in the Documentation, a desired change in the Product which can be easily circumvented or avoided, or a Product enhancement request. Azul may, at its sole option, include a Fix for the Error or the requested enhancement in a future release of the Product.

3. EXCLUSIONS. Azul shall have no obligation to provide any Support Services for: (i) altered or damaged Products; (ii) any version of a Product that

is not currently supported per the Product Lifecycle Policy; (iii) any Product that is not obtained from the Download Site or a Business Partner, (iv) Product problems caused by Customer’s negligence, abuse or misapplication use of Products other than as specified in the Documentation or other causes beyond the control of Azul; (v) Products installed on any hardware that is not listed as supported in the Documentation; or (vi) Product or Product component(s) or Product feature(s) specifically identified as “Community”, “Feature Preview”, “Early Access”, “Not Supported”, or “Experimental”. Azul shall have no liability for any changes in Customer’s hardware which may be necessary to use the Product.

4. CUSTOMER RESPONSIBILITIES. Customer shall exercise commercially reasonable efforts in cooperating with and providing information to Azul with regard to Support Services. Customer is required to assist Azul until problem resolution. Required Customer activities may include logging into Customer’s systems for diagnosis of problems, downloading and installation of software updates, retrieval and transfer of system logs/files, re-installation of the Product, and participation in tests for fixes.

5. CASE RESOLUTION PROCESS. Using good faith and reasonable judgment, Customer will assign an initial Priority Level to each report prior to reporting it to Azul, and Azul will assign a unique tracking number to each report as it is reported. Using good faith and reasonable judgment, Azul may change the Priority Level of a report. Azul will assign technical support resources and provide progress reports for each report, using commercially reasonable efforts to do so, in accordance with Section 2 of this Exhibit B.

6. TARGET RESPONSE TIME. A response to a request for Support Services shall consist of receipt of and acknowledgement by Azul of Customer’s request for Support Services (the “First Response”). Azul will use commercially reasonable efforts to provide a First Response within the target SLA response time set forth in the table below. Customer acknowledges that a First Response may not include resolution for all requests for Support Services. However, Customer acknowledges and understands that no software is perfect or error free and that, despite Azul’s commercially reasonable efforts, Azul may not be able to provide answers to or resolve some or all requests for Support Services. Azul makes no promises, guarantees, or assurances of any kind that it will be able to resolve all of Customer’s Support Services requests.

| Error Type | TARGET RESPONSE TIME | |
|------------|----------------------|---------------------|
| | Standard | Platinum or Premium |
| Priority 1 | 1 Business Day | 1 hour |
| Priority 2 | 2 Business Days | 4 hours |
| Priority 3 | 2 Business Days | 1 Business Day |
| Priority 4 | 2 Business Days | 2 Business Days |

7. PRODUCT LIFECYCLE POLICY. For Customers who have purchased Support Services, Azul offers support beginning from the Java Major Release Date, divided into two distinct phases: Production Support and Extended Support.

- The Production Support phase includes maintenance updates, Error corrections, and security vulnerability resolutions, and may include feature enhancements. Security vulnerability resolutions will be made to supported Major releases and the latest Minor Release only, while Maintenance updates and Error corrections will be made to supported Major and supported Minor Releases. Minor Releases will be supported a minimum of twelve (12) months from the general availability of the Minor Release.
- The Extended Support phase supports Product releases that have gone beyond the Production Support phase of the product lifecycle. During Extended Support, support is delivered primarily in the form of identifying Workarounds, and Azul may direct Customer to upgrade to a more current Major, Minor, or Maintenance Release of the Product in order to resolve issues. During the Extended Support phase, no Minor or Maintenance Releases are expected to be delivered, the exception being certain security vulnerability resolutions that may, at Azul’s sole discretion, be made available. A Product is deemed end-of-life (EOL) at the end of the Extended Support phase.

Each Major Release for a given Product is designated as Long Term Support (LTS), Medium Term Support (MTS), or Short Term Support (STS) as

detailed at https://www.azul.com/support/product_releases/ with the following Production Support and Extended Support periods:

| Lifecycle | Production Support (from the Java Major Release Date) | Extended Support (from the end of Production Support) |
|------------------|---|---|
| LTS | 8 years | 2 years |
| MTS | 1.5 years (from general availability of next LTS release) | 1 year |
| STS | 1 year | 6 months |

DOES NOT CHANGE OR SUPERSEDE ANY TERM OF THE AGREEMENT EXCEPT TO THE EXTENT UNAMBIGUOUSLY CONTRARY THERETO.

8. DESIGNATED SUPPORT CONTACTS Customer may only contact Azul through Customer's Designated Support Contacts. Customer may designate up to the number of contacts as set forth in the applicable Exhibit A. Azul will provide Support Services to Customers solely by communicating during the hours of coverage with the individual Designated Support Contact(s) appointed by Customer. Customer may change the Designated Support Contacts by notifying Azul in writing.

9. DEFINITIONS.

- "Business Day" means a day during Azul's Standard Business Hours
- "Business Hour" means an hour during Azul's Standard Business Hours
- "Documentation" means the official Product documentation made available by Azul with the Product, which may be modified from time to time.
- "Early Access" means a version of the Product containing upcoming Fixes which is not yet subject to general release, which is released by Azul to Customers who have selected a Support Tier which includes Early Access.
- "Error" means a reproducible failure of the Product to substantially conform to the functionality and specifications as described in the Documentation.
- "Fix" means the repair or replacement of object or executable code versions of a Product or Documentation to remedy an Error.
- "Hot Fixes" means a preliminary version of the Product containing upcoming Fixes which is not yet subject to general release or Early Access, which is released by Azul to Customers who have selected a Support Tier which includes Hot Fix access.
- "Java Major Release Date" means the date of formal approval by the Java Community Process Executive Committee of the umbrella Java Specification Request (JSR) for a given major release of Java Standard Edition, as follows: (a) December 11, 2009 for JSR 270 for Java SE 6, (b) July 20, 2011 for JSR 336 for Java SE 7, (c) March 4, 2014 for JSR 337 for Java SE 8, (d) September 21, 2017 for JSR 379 for Java SE 9, etc.
- "Major Release" means a Product release which may deliver significant new features, enhancements to existing features, or performance improvements, as well as Error corrections. Major Releases incorporate all applicable Fixes made in prior Major Releases, Minor Releases, and Maintenance Releases.
- "Minor Release" means a Product release which may deliver new features, enhancements to existing features, or performance improvements, as well as Error corrections. Minor Releases incorporate all applicable Fixes made in prior Minor Releases and Maintenance Releases.
- "Maintenance Release" means a Product release which may deliver Error corrections that are severely affecting a number of customers and cannot wait for the next Major or Minor Release. Maintenance Releases incorporate all applicable Error corrections made in prior Maintenance Releases. Maintenance Releases are released as needed based on customer feedback and outstanding Errors.
- "Standard Business Hours" means between 7:00AM and 7:00PM Pacific Time on Azul's regular (non-holiday) business days
- "Ticket" means a formal support case opened by or on behalf of Customer, where each case or trouble ticket documents a unique issue requiring investigation and resolution.
- "Workaround" means a change in the procedures followed or data supplied by Customer to avoid an Error without substantially impairing Customer's use of a Product.

THESE TERMS AND CONDITIONS CONSTITUTE A SERVICE CONTRACT AND NOT A PRODUCT WARRANTY. ALL PRODUCTS AND MATERIALS RELATED THERETO ARE SUBJECT EXCLUSIVELY TO THE WARRANTIES SET FORTH IN THE AGREEMENT. THIS ATTACHMENT IS AN ADDITIONAL PART OF THE AGREEMENT AND
